Printing Instructions for Bed Bug brochures

Printing brochures on office printers:

- 1. Use PDF files without crops and bleeds
- 2. Select version either 8.5x11 or 8.5x14 (depends if you have this size paper)
- 3. In print dialogue box, use two sided setting, short edge binding
- 4. Fold brochure accordingly

Printing brochures with commercial printers (Kinkos etc.):

- 1. Use PDF files with crops and bleeds
- 2. Request heavy weight text paper
- 3. Should be printed on a larger sheet in order to allow for cutting to exact size with bleeds
- 4. Request folding of brochures if possible
